

Premium Service

This service includes 3 premium mechanical inspections anywhere within a radius of 5km from [our garage](#) and 2 regular inspections in our garage (this depends on if the seller agrees to come to our garage).

Every additional premium inspection or an inspection outside of the 5kms radius would cost 25,000CLP and every additional regular inspection costs 15,000CLP. Normally additional inspections are not necessary.

All the repairs and maintenance costs and estimates we may give you during the inspection report are rough estimations and might differ from the actual costs later on.

We will call up to 5 car ads per day in order to arrange a visit or inspection.

It is possible to obtain the RUT number (tax number we sponsor) before your arrival.

Selling your car: Suzi Customers receive priority and lower commission rates. The sale price is calculated by a 10% value reduction for anything between 0kms and 15,000kms and an additional 1% reduction for every 1000kms above 15,000kms.

Discounts included: 5% discount on our store products. 5% discount on construction quotes (campervan workshop)

Borders: We do our best to ensure our customers will have the right documents and requirements, as well as a border list for more “easy going” borders, however our control is limited and border officers might decide to not let you cross.

Remote Services

Any remote service we may offer such as RUT and title transfers also depends on the cooperation of the specific Chilean embassy you may go to.
